

This email is in regards to bill SB184. I am an independent voter and let me just say that this is the most childish thing I've ever seen. We are supposed to believe that covid Omnicron is so dangerous that we can't show up to vote? Scrap that bill, and honestly? Are we in 2nd grade? It's hard to believe serious people actually wrote down that it's too dangerous to vote because of covid.

Seriously, this bill is so silly it makes me question whether to vote Democrat ever again.
